## Mobile phone Chips

I had been to the doctor because I had developed an aching pain in my neck and shoulders, along with an ear ache that varied in severity. Interestingly, after several visits and numerous drugs, my doctor asked me if I used a cell phone much.

When I replied that I practically lived on mine, he suggested that it may be the root of the cause of my problem. Whilst I didn't say anything to him, (well one doesn't normally argue with these learned folk), I left his surgery really disgruntled, as I was worse than when I first went to him, and now with no remedy in sight, as he told me to stop using my phone for a couple of weeks to see if the problem still persisted.

Considering I need my phone to work, this was not an option, so I just put up with the pain. My son Frank, came home with these BioPro Chips & put one on my phone. Within three days my pain abated and has never come back, plus I am clear headed and have more energy at the end of the day.

## Q-Link

Within three minutes of donning my QLink I was amazed to feel warmth and 'buzzing' moving through fingers that had been getting progressively more immobile. Within 24 hours my hands were pain free for the first time in nearly 10 years, and they continue to remain so, with their flexibility and motion improving slowly- while their numbness even shows signs of disappearing. What Magic!

VALERIE ANDERSON, TASMANIA

As a sufferer of migraines, I was curious to see whether the Q-Link would help me. At the time of purchase I had been suffering a migraine for three days. I put the Q-Link on when it arrived and within two hours my migraine was gone. It has still not returned!

CHRISSEY THOMASSEN, COROMANDEL

"Who am I? 2 years ago I wouldn't have been able to tell you. I knew my name and where I worked and all the day to day stuff you do but I didn't really know who I was. I didn't know what I liked or what I enjoyed, I just felt nothing, like an empty shell. I didn't sleep properly, I was constantly tired and moody. Going to a shopping centre made me unbelievably anxious and paranoid, so I just stopped going out. A social life was impossible and I lost touch with all my friends. I was having constant confrontations with a Co-worker and in secret I was burning my own skin because dealing with physical pain was easier than dealing with the day to day things I came across. I felt as alone as any one person can get.

I'd been this way for about 3 years and at 24 I decided that enough was enough. I work in a very high stress and demanding environment. I haven't always had good relationships with men. I lost my mother in a car accident when I was 13 and I've watched some of my closest family members go through some of the most traumatic and difficult times you could imagine.

Like millions of other Australians, I suffer from Mental Illness. My condition is called Borderline Personality Disorder and after 4 months in a psychiatric hospital, 12 months on medication and 18 months in intensive therapy, I've finally regained a normal life. But I still suffered from sleep disruption and exhaustion. Most mornings I would wake up feeling tired because of disrupted sleep or nightmares and all I'd want to do was roll over and go back to sleep. Just getting up to go to work everyday was a nightmare.

In January 2005, my parents gave me a BIOPRO Q LINK to try. At first I was very sceptical of the product, as nothing had really helped previously. But after just 24 hours I noticed a huge difference in my mood and energy levels. Not only did I have boundless energy but I noticed that I was sleeping through the night rather than getting up 3 or 4 times. My mood improved dramatically and I also had improved concentration and experienced less frustration.

Now I don't dare take my Q LINK off, even to shower. I wear it 24 hours a day 365 days a year. I even signed up as a distributor and I strongly recommend this particular product to everyone. Its made an amazing difference for me and given me a better quality of life.

JENNIE, QUEENSLAND, AUSTRALIA

"All my life I've wanted that extra 10%, to do more, enjoy more and see more. I was so good at using every last minute of every day that I contracted Glandular Fever 4 months into my first fulltime job. Those 6 weeks in bed and the slow recovery was when it first hit me – I am mortal, frail and my health is all I have. I've since experimented with my diet, supplements and special sleep systems but nothing 'tops me up' adequately. Imagine my surprise when 2 months after putting a

QLink on, I worked until midnight, flew Melbourne to Brisbane at 4.30am, sat alert in work training all day, then flew back at 10.30pm, with no jet lag and still feeling totally focused. I have not been sick in the 4 months I have now been wearing the QLink, my energy is up and I am sharing the benefits of this amazing gift with the world."

OLIVER, MELBOURNE, AUSTRALIA

Being well aware of EMF and the health dangers associated with radiation, I was keen to purchase a Q-Link as soon as I could. While I'd heard numerous stories about people having more energy with wearing the Q-Link, that wasn't the most obvious benefit for me.

I have had issues for years with PMS and as I've gotten older it has become rather irritating. Two hours after wearing my Q-Link there was a noticeable difference in my general emotional state. I felt more grounded and less emotional which has been a huge blessing. If for some reason I become upset today, I do not feel turmoil inside and can deal with whatever comes up in a calm manner.

In the past month our business has skyrocketed and we have been travelling more and working longer hours. I now notice the value of my Q-Link when it comes to energy levels and wouldn't be without it!

BJ, AUCKLAND

### **A Real test of Endurance:**

I was diagnosed with a twisted bowel on the Thursday, by Sunday I was not only in excruciating pain, I had absolutely no energy. It took all my effort to get out of bed & go to the bathroom.

I obtained a Q-Link 4:00pm on the Sunday. Whilst I was still in immense pain, when I awoke after a full nights sleep (I had been unable to sleep since Wednesday night), the pain was somehow manageable & I again had energy which enabled me to get to work & sort my bowel dysfunction by use of natural means.

(The medics wanted to operate with the possibility of having to give me a bag. Yeh right!!)

I set about a 25 day cleansing process, without food. All through this arduous process I never ate once. On the morning of the 26<sup>th</sup> Day, I needed to stop my process as I was catching a plane to Melbourne in a day's time to facilitate a week of business meetings.

Less than 48hrs after completing a 25 day fast/cleanse I was on a plane, arriving in Melbourne & that first day, worked a total of 26hours, finishing the day as if I had been on the beach all day.

The rest of the week was spent full on with business meetings & playing.

Now considering I had just had 25 day's without food & in bed, with a day & a bit to recover, my energy level was beyond belief. I put this down totally to the Q-Link.

Paul Kirk Auckland NZ

## **Fuel Chips**

Prior to putting the Econo Fuel Chips on our TOYOTA HI-LUX SURF we used 11litres per 100kms. With Econo Fuel Chips we used 8.4 liters per 100 kms. That is a 23.64% Saving!

DUSTY WOODS, WAIUKU

George drives a 2003 NISSAN X TRAIL On a recent trip from Melbourne to Sydney, with one other adult in the car; he got 480Km from a tank of fuel. WITH CHIPS On the return trip, after applying the chips and with 4 adults and luggage, he got 650km from the tank. He has found that the power is much better as is the performance of the car. That is a 17% Saving!

GEORGE & GILLIAN, MELBOURNE

I installed a set of BioPro Fuel Chips on my 1996 VOLVO 850GLT with 260,000 Kms on the clock On a recent 1500Km trial, the smoothness and acceleration has increased considerably and fuel consumption has decreased from and average 10.9 litres per hundred Km's to 9.1 That is a 17% Saving !

BRIAN HEAD, GREENHITHE

"I was skeptical that fuel chips would improve my 3-month old 2005 Mazda6 with 3,000 kms on the clock, running on Unleaded 96. So I was amazed at the

instant increase in power off the mark. Better yet, the car dropped from 12.2 liters per 100 kilometers to an average of 9.8 liters. That's an improvement of 19.2%! I am now giving everyone I know the same chance to save on fuel for the life of their car and eagerly await the results of my before/after Mazda Depot emissions tests." That means \$10/week savings!

O.H., MELBOURNE, AUSTRALIA

On February 14<sup>th</sup> I started to check the fuel consumption on our 2000 Toyota Corolla. After checking 2 tanks of fuel without chips, I established that we were averaging 9.85 litres per 100 km, or 1L=10.115 km. After chips were applied, the first tank of fuel yielded 9.09 litres per 100 km, or 1L=11 km. The second tank of fuel yielded 8.25 litres per 100 km, or 1L=11.96 km. This works out to better than 17% savings!

RAY DAVIS, QUEENSLAND

## EMF Harmonization Chips

I have always's driven long distances frequently, even though at the end of those trips, I had always got out of my car stiff, cramped and very tired.

I fitted 3 Universal EMF Harmoniser Chips, as per directed to my late model Holden Comadore. The first trip was from Auckland to Wellington, about 700km's non stop.

Having driven that trip numerous times before with the same aching body outcome every time; I was amazed at how fresh I felt when I arrived in Wellington. In fact if felt like I had just driven down the road to pick up milk from the dairy.

Even my passengers comment on how they feel when they ride with me. These chips have made a massive difference to my life.

Robert Dunston, Wellington NZ
